[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO SEPT. 5.

EASTERN STATES.

The Tammany Thieves.

NEW YORK, Sept. 4.—The meeting of citizens in relation to alleged frauds in city finances, held to-night at Cooper Institute, was largely attended. Much enthusiasm was shown by the audience when the city officials were denounced by various speakers. Amongst the prominent citizens present were Noah Davis, Wm. Everts, Henry Olcott, Isaac Bailey, G. B. Chittenden, Moses H. Grinnell, Lockwood, Jackson Schultz, Marshal O. Roberts, Gen. John A. Dix, R. J. Arnold and a number of others.

On motion, the chair was taken by Ex-Mayor Havemeyer (Democrat), who said the meeting was non-partisan in its conception and objects. All parties were alike equally interested in having an efficient and economical administration of our city government. He said the charges of corruption and extravagance preferred against the city authorities had not been satisfactorily answered.

After addresses by a number of prominent citizens, demanding municipal reform and rigid inquiry into past expenditures and the present condition of the finances of the city, a series of 12 resolutions were adopted. They declared that the city and county debt have more than doubled within the last two and a half years, being now $113,000,000,—over $63,000,000 more than when Mayor Hall was inaugurated, while there is reason to believe many millions more will be paid on floating and contingent claims unless the present officials are removed or arrested.

The manner in which the parties implicated have met the exposure of their fraudulent practices is a contemptuous denial of any power to interfere. The flippant evasions and studied concealment of a large part of the public accounts and attempts to garble and confuse the residue, are characteristic confessions of guilt, and coupled with facts and figures already disclosed, furnish ground to believe that the same men who have squandered or stolen hundreds of thousands of dollars of the tax payers' money are still engaged in similar frauds and speculations.

Hurricane at the Bermudas.

HAVANA, Sept. 4.—Advices from Arecibo to the 22d ult. report a fearful hurricane at the Bahamas. The American vessels *Corsair, Carolina*, and *O. W. Williams*, and the English vessels *Lady Bird* and *Nellie Moore* are wrecked. All hands saved.

New York Financial Affairs.

NEW YORK, Sept. 4.—The first bale of new California hops sold to-day at seventy five cents per pound.

Money is easy at 5 per cent.

Stocks are active and strong: Western Union, 86½; Pacific Mail, 50¾; Quicksilver, 14½; Maripoon, 3½; Wells, Fargo & Co., 52½.

WASHINGTON CITY.

The New Loan.

WASHINGTON, Sept. 4.—It is not yet known what course the Secretary will pursue in relation to the issue of one hundred millions of dollars of five per cent. bonds which remained of the new loan under the funding bill, but the impression prevails in financial circles that the issue of the new bonds will be offered for a month to come, and that when Boutwell decides to place more of the new loan on the market, he will offer all three classes of bonds authorized under the funding act in equal portions of each class, unless Congress should in the meantime authorize him to withdraw the 4½ and 4 cents from the market altogether.

The Arizona Indians.

Vincent Colyer has written to the Secretary of the Interior a letter dated Fort Craig, August 24, in which he says he had had several interviews with messengers from Cataher, but that they gave no satisfaction, and the chances of bringing that Chief to Washington are very slight. He appends the following to his letter:

CAMP GRANT, August 27.—Nathaniel Pope, Esq., Dear Sir: Mr. Trujillo has just got in without seeing Cataher. He says he very unexpectedly met Gen. Crook who ordered him back and refused to recognize his authority to go to Cataher' camp, threw his letter down in disdain, saying that the Superintendent of Indian Affairs of New Mexico or any Agents had authority to send parties into Arizona; that his instructions authorized him to capture any American or Mexican found in his route. He also says he attempted to arrest the Indians, but Lt. Ross knew Saco, and interceded for him. Gen. Crook would not let him get his rations which were some distance from where he met the party. The General told them they were lucky to get back with their lives without any rations. If you return here I think the affair shall be investigated further. Yours truly, (Signed) C. F. PIPER.

BY ATLANTIC CABLE.

Dispatch from London.

LONDON, Sept. 4. The Christian Conference met to day at Aldersgate. Messrs. Wetmore of New York, Revell of Chicago, and Vanmeter of Philadelphia showed the progress of the Christian Association in America.

A fishing schooner foundered in Portland Frith, and five were drowned.

LONDON, Sept. 4.—It proves that the number of police injured in the riot yesterday is exaggerated; only six were badly injured, and 18 slightly. Twenty-seven of the rioters were arrested. Disorderly persons were in the streets all night singing seditious songs. The police station was smeared with the blood of the wounded.

A railroad accident occurred on northern railroad in France. Ten persons were killed and an immense number hurt.

French Affairs.

PARIS, Sept. 4.—To-day being the first anniversary of the downfall of the Empire and proclamation of the Republic, military precautions were taken to prevent any dangerous demonstrations, but the day passed quietly. No disturbance is apprehended anywhere.

The disarming of the National Guards in the cities of Southern France begins on the 15th inst. Troops have been concentrated at points in the South in such a manner as to insure prompt obedience to the law. As soon as disarmament is completed the state of siege will be raised.

In the Assembly to-day the Minister of War informed the Chamber that the Commission appointed to investigate capitulations during the late war would meet on the 15th inst. It would investigate events in chronological order, taking up the surrender of Sedan first.

The bill providing for the duration of newspapers is adopted.

Austria and Germany.

VIENNA, Sept. 4.—It is officially announced that Ministers Von Beust, Andrassey and Horonart will assist at the conference of Emperors at Salsburg. The Emperor of Austria leaves for that city to morrow.

BERLIN, Sept. 4.—Bilion has been relieved of the Governorship of Ancona and Lorraine and promoted to the rank of General.

Movements of the German Emperor.

BERLIN, Sept. 4.—Emperor William after his interview at Salsburg with the Emperor Francis Joseph will go to Munich, where he is expected to arrive on Friday or Saturday of this week.

CHINA.

Typhoon at Hongkong.

HONGKONG, Sept. 3.—A destructive typhoon visited this vicinity yesterday. Twelve vessels were driven ashore.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Sept. 5.—Between 10 and 11 o'clock last night, Sydney Flag, alias Smith, shot and killed a rival boatman, Richard Hartley, alias Mickey Free, near the corner of Third and Berry streets, Long Bridge. The ball entered Hartley's mouth passing up into his brain. Hartley leaves a wife and children. The murder appears to have been cold blooded and unprovoked. Flag surrendered himself at the calaboose about 1 o'clock this morning, and was booked on charge of murder.

The steamer *Enterprise* is being fitted up for an opposition freight and passenger boat for Sacramento.

THE TERRITORIES.

The Walla Walla *Union* advocates the Wallula railroad subsidy project.

At the Olympia Land Office during August 19,625 acres were disposed of.

At the Kentuck Ferry on Soake river a few days ago a man named John Theil was drowned.

Since the 17th of July 9,081 acres of land have been disposed of at the Walla Walla land office.

Walla Walla papers claim that only one person has the small pox at that place,—a man named Stewart, from Florence.

POLITICAL NOTES.

A calculation shows that of every $25 taxes paid in New York the people get the benefit of $1 and the Tammany thieves steal $24. This is the eminent Democratic financiering which is recommended for the whole country.

It is said the white Republicans of South Carolina favor the nomination of ex Gov. Orr for Governor, with F. L. Cardozo, the present Secretary of State, for Lieutenant Governor. On the Democratic side, Gens. J. B. Kershaw, M. C. Butler and James Conner are mentioned in connection with the nomination for Governor.

That was rather an impolite Southern stump orator who, in commencing his address, said: "I intend to speak plain English to you, Democrats. I would like to have you listen to me calmly. I do not come here to stun you with any oratorical eloquence. I want to enlighten you, and it will not take much of an orator to do that."

The New Haven *Journal* says: "It is true that here and there an eccentric journal puts forward a new name in connection with the next Republican nomination for the Presidency, but the average sentiment of both friends and enemies is that General Grant is morally certain of being the man, and that by a unanimity as great as that which prevailed at Baltimore when Abraham Lincoln was named for a second term." So nine-tenths of the people say.

That remarkable address of the Boston Young Democracy contains this: "We must have it understood, briefly, broadly, and comprehensively—that we are for the National Constitution as it is; that we regard it as our first, last, and only guide, and from its parchment folds we would not erase a single letter or a single line." And this: "For the destruction of human slavery and the elevation of the negro to citizenship in the land where he was born, and on the soil that he has tilled, every true Democrat will thank God."

CURRENT NOTES.

Election to-day (Wednesday) in California.

Corea, where we had the recent "unpleasantness," has a population of twelve millions.

A black man and white woman, recently married in Georgia, have been fined $1,000 for "miscegenation," and, in default, sent to jail for six months.

A Hartford man suggests in a note to the *Courant* that the Deaf and Dumb Asylum ought, for the benefit of the inmates, to be removed to a more quiet place.

The Hartford *Courant* thinks the Helmbold suicide "telegrams were concocted simply to get newspapers to advertise old drugs and chemicals editorially and gratuitously."

The total valuation of Boston this year is $612,603,541. The taxable value of bank shares of the city is $61,519,551. The increase in the total valuation since 1870 is $28,574,156.

The Treasury Department is constantly in receipt of letters from all points showing that the most intense feeling exists all over the country with relation to the recent steamboat accidents and disasters. These letters call the attention of the authorities, for instance, where vessels now actively engaged in business are unsafe, and travelers who have occasion to go on them may at any moment be blown into eternity. Whether any of these letters have been sufficiently explicit to indicate any particular vessel or craft, they have been forwarded to the Inspectors of the points named, with instructions that they be subjected to the most careful examination.

Democratic Financiering.

In a recent speech at Sandusky, Ohio, Secretary Delano contrasted Republican financial management with Democratic financiering at New York. Speaking of the latter he said:

Here was paid a larger sum for repairs, carpets, and furniture for county offices, than the present administration paid, in the same year, for mail transportation throughout the United States; nearly three times as much as the entire diplomatic expenses for two years past, is much as the yearly cost of collecting the customs revenue; more than all the miscellaneous expenditures of the Interior Department for either year of the present Administration, and more than the entire annual expenses of the Indian Bureau! Here is a larger sum paid in eleven months, for plastering, than the entire expense of the United States for foreign intercourse during the present Administration; and more for plumbing and gas-fitting in one year, than the expense attending all the public buildings and grounds in Washington City. There was paid more money to three men for such expenditures in one year, than was paid for the collection of the entire internal revenue of the country in any year of the present Administration; more than double the expenses of the United States Courts for two years, and more than all the expenses of the Forty-first Congress. With such a policy as this transferred to Washington, the Democratic clamor that the national debt must not be paid off now, would be found full of meaning and full of danger. Public credit would fall and distrust of all public securities be openly avowed. The Government could not long survive such mismanagement. The people of New York must at once awake to their danger. The present city debt is $80 per capita. If their municipal affairs are not improved, their public securities must seriously depreciate, their real-estate suffer from the same influence, and that noble city will be given up to the riots, bloodshed and insecurity instigated by lawless men, and to the pecuniary plunder of the political thieves who are seeking to gain possession.

MORAL INFLUENCE.—The influence of example is far reaching; for our experience and conflicts with the world lead us at times to indulge misanthropic sentiments, and charge all men with selfish and impure motives. The play of pride, prejudice and passion, and the eagerness manifested by the great majority of men to advance their own interests, often, at the expense of others, and in violation of the golden rule, cause us to look with suspicion on the best intents of others. Arrogance, hypocrisy, treachery and violence every day outrage justice, till we are almost disposed to distrust human nature, and become discouraged. But amid all that is disheartening in this busy, noisy world, now and then there is presented to us a life of such uniform virtue that we recognize in it a character that brings hope for the perfect development and ultimate regeneration of our race. Such characters are precious, and such examples should be held up to the world for its admiration and imitation; they should be snatched from oblivion, and treasured in the hearts and thoughts of all to aid in the process of forming habits and maturing character.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

General Foreign News by Mail.

NEW YORK, Sept. 5.—A correspondent writes from St. Petersburg, under date of August 20th, that the Russian Government has not recalled Minister Catacazy. Relations between Secretary Fish and the Minister were unpleasant, and the former asked for the Minister's recall, but in the absence of Gortschakoff, the Acting Premier of Russia declined to recall him. Acting Premier Worthelmer approved Catacazy's conduct in the Perkins' claim negotiations, and expressed indignation at the attacks made upon him in American official journals, and although Catacazy himself desires to return to Russia his request is not likely to be complied with until the rest of Prince Alexis is over.

A correspondent writing from Rome, August 5th, says: "Several of the most eminent Cardinals and Bishops who are strong Infallibilists, are becoming reconciled to the political situation. Cardinals freely appearing in the streets meet with respectful and sympathetic regard from the citizens."

A Madrid journal contains a statement that at a meeting of the Central Committee of the International Society, held at London, it was resolved to shrink before no obstacle in order to ensure the success of its principles. The Internationals consider that the greatest of these obstacles are M. Thiers and the Kings of Belgium, Italy, Spain and Portugal. It was resolved that they be assassinated. It was also resolved to set fire to all workshops, factories, and other establishments and compel hungry and unemployed workmen to take part in the social war. F. Pyatt, Vergerat, and other refugee members of the Commune took part.

BY ATLANTIC CABLE.

More Rioting at Dublin.

DUBLIN, Sept. 5.—There was fierce fighting all night. The police were driven into their barracks but received reinforcements and charged the crowd. They were driven into their barracks again. The rally was repeated several times but met the same result. A bar of iron thrown from a public house led to the entering of the house and capturing of its inmates. An attempt was made to rescue them by the mob in which a riot followed. The house was completely wrecked by the mob in frantic rage. Half of the police engaged in the affair were injured. Prisoners sang national songs all night. There is great excitement, and increased number of Prisoners cheered; police hissed and women behind the rioters.

French Affairs.

PARIS, Sept. 4.—The passage of the bill to make it punishable to belong to the International Society is likely to become a law.

The approaching dissolution of the National Guards is contemplated with apprehension by many, and it is feared that the measure will throw a large number of men into the International Society.

There are 60,000 troops in the city. Constant patrol is kept up.

Lyons, Marseilles and Bordeaux are filled with troops.

The Religious Agitation in Germany.

LONDON, Sept. 5.—There is a report that Prof. Friedle, one of the excommunicated Dollinger leaders, continues to exercise his religious beliefs; that the Archbishop of Munich will probably place an interdict upon the Church in which he officiates and excommunicate those who sanction his proceedings.

EASTERN STATES.

New York News.

NEW YORK, Sept. 5.—A Democratic organization called the "J. Doeing Association," held a large and enthusiastic meeting last night, and adopted resolutions denouncing Congressman Roosevelt to resign, as he has been a traitor to his constituents, and joined the Radical party.

The *Herald* and *Tribune* regard last night's meeting at Cooper Institute as a great success. The *World*, however, thinks it was a custom house affair, and that the action of the meeting stamps it as the work of the custom house who deeply involved some well-meaning citizens to take part in its proceedings.

CALIFORNIA.

Politics in San Francisco.

SAN FRANCISCO, Sept. 5.—The practice of closing stores and business places generally on election day having resulted in a general stampede of clerks and employees to the Chit House and elsewhere, the supporters of the Republican and Tax Payers' tickets will to-morrow generally continue business as usual, giving only an hour for employees to vote.

There are apparently ten times as many blackmailing shysters following candidates for a "piece" this election as ever were seen before. The sidewalks in the vicinity of California and Montgomery streets are blocked with them, and they swarm like flies around the business offices of all the candidates on all the tickets.

The stock market was tolerably firm, but quite this afternoon being visibly affected by the election excitement.

There is hardly any betting going on.

The Bulletin says it has got out a ticket, but it contains several names of persons who have withdrawn. The movement has rapidly lost ground within the past week, and the ticket will hardly be known at the polls. Owing to very general scratching, so all tickets it will be impossible to give anything more than approximation of the general result of the election in this city to-morrow night. Badlam, for Assessor, on the Tax-payers ticket, will be bitterly opposed by members of the Eureka Typographical Union on account of his insolence rendered to the *Bulletin* during the late strike, but he will get a large number of Democratic votes.

The Democrats are holding much the largest meeting of the campaign this evening. Platt's Hall is jammed and speaking is going on from three stands on Montgomery street. They have no procession to-night.

INTERIOR CALIFORNIA DISPATCHES.

Fire at Pacheco.

PACHECO, Sept. 5.—There was a large fire here this morning about 4 o'clock in Hoak's store and warehouse. Loss, $18,000. Insured for $7,900; Hunker & Potter's loss $2,000; Morimo's (saddler) loss, $2,000; insurance, $1,600. Odd Fellows' Hall loss, $5,000; insured, $3,000. L. Anderson's loss, $500. J. H. Troy, $500; no insurance. A great deal of other damage was done. The fire was caused by an incendiary.

Murder at Monterey.

MONTEREY, Sept. 5.—Martin Herges was assassinated last night. He was stabbed in five places, several times in the back. The cutting is supposed to have been done by James Bushton and Chavotte Vasquez, who are now in jail.

EARN WHAT YOU SPEND.—Three-fourths of the difficulties and miseries of men come from the fact that most want to live with without earning it, fame without deserving it, popularity without temperance, respect without virtue, and happiness without holiness. The man who wants the best things, and is willing to pay just what they are worth, by honest effort and hard self denial, will have no difficulty in getting what he wants at last. It is the man who want goods on credit that are snubbed and disappointed, and overwhelmed in the end. Happiness cannot be bought by the bottle, nor caught up by the excursion train, nor put on with any robe or jewels; nor eaten at any feast. It does not exist in any exhilaration, excitement or ownership, but comes from the use of the faculties of body and mind.

MARRIAGE.—A man who passes through life without marrying, is like a fair mansion left by the builder unfinished. The half that is completed runs to decay from neglect, or becomes at best but a sorry tenement, wanting the addition of that which makes the world useful.

Carter & Co.'s mining ditch, in the Burnt river district, is now completed and water is supplied for use in a large extent of mining country.

OREGON.

Wheat is worth here 87½ cents a bushel in Grand Ronde, Union county.

Water pipes are strewn over the streets of Salem. They will soon be imbedded and fitted for use.

A new town called Woodburn, has been located on the O. & C. Railroad seventeen miles north of Salem. Mr. J. H. Settlemire is the founder and proprietor of this place.

The *Statesman* learns that Wilhoit's Springs, in Clackamas county, have been sold for $15,000. It is understood that the place will be fixed up as a resort for summer visitors and invalids.

From the *Statesman*: "A little child four years of age was introduced to the Magical Society meeting yesterday, and its head, which has become enlarged from some cause, measured the following: Size around forehead, 22½ inches; from ear to ear, 17½ inches, and from the back part of the head to the eyebrows, 17 inches. It would be really a beautiful one were it not for this deformity."

A gentleman writing from Johnson's under date of Sept. 2d says: "There is considerable sickness existing in the neighborhood of Jacksonville. The prevailing disease seems to be a remittent fever. The appointment of T. C. Dunn as County Judge has caused quite a flutter, and as evident disappointment on the part of the Rock Democracy throughout the county. So great was their disgust, that they did not do the Judge the honor to announce the appointment in the last number of the *Times*."

Convalescence and Recovery

are rapid under the new and scientific mode of treatment, and every day, week and month of his practice has but served to add fresh laurels to his name and fame, and to establish for DR. ABORN, Combining with his knowledge, skill and experience in the special branch of the profession to which he has devoted the age or the late discoveries of medical science have rendered available for the benefit of mankind, he is prepared to treat with all the confidence of success in all such cases as may come under his care. He has within the past few years, introduced into his practice many important and valuable remedies, and certain special modes of application, with which, during his professional career, he has rendered the most wonderful cures, and is now prepared to warrant a cure in all cases undertaken by him, or will make no charge for results.

DR. ABORN,

For the last seven years has devoted himself to the treatment of Chronic Diseases, and during that time has treated successfully such cases as have resisted all the skill and practice of the profession. He has thus established in less than five years as many patients annually as he practically could have done in a life time of ordinary practice, or twelve years of office practice, entirely devoted to special chronic diseases, is more than equivalent to SIX years' practice in general practice.

NO PAINFUL OPERATIONS.

DR. ABORN does not subject his patients to pain, for no painful operations. His treatment is mild and soothing in its effects, and those who call upon him are informed that all of the first class diseases to which he makes a specialty, can take the treatment home and have their cures effected without pain or interruption to their usual business.

WEDNESDAY MORNING, SEPT. 6, 1871.

Certain Familiar Facts.

An effort is made by the *Herald* to show that Jefferson's resolutions of '98 are not identical in principle with secession and national disintegration. This is a very old subject and one upon which the people of the United States have fully made up their minds; yet as it is well to meet the propagators of dangerous doctrines at every turn they take, we devote a little space to this old matter.

"It is," says the *Herald*, "a slander of the dead and an abuse of the living to couple the name of Thomas Jefferson with secession." Whether one holds this opinion or not depends greatly on the extent and accuracy of his knowledge of Jefferson, and his ability to trace our political troubles and our civil war back to their real causes.

It may be supposed that the seceders themselves knew on what principles they acted. On all occasions they appealed to Jefferson as the one great authority, and quoted his resolutions of '98 as their justification. The Vice President of the Confederacy has written a "history," of the war, in two large volumes, in which he goes back to Jefferson's principles for a vindication of the movement. When the rebel Convention assembled to form the Confederate Government they started the proceeding by appealing to Jefferson's principles as their warrant, and recited his resolutions of '98 as unimpeachable authority for their separation from the old Union. Thus it appears that the only part of our people who have attempted secession invoked the name of Jefferson as the author of the doctrine, and accepted his Kentucky resolutions as their political guide, making no pretense to any other authority or justification. It is not we, therefore, who "couple Jefferson's name with secession;" it is the seceders themselves who do it. And multitudes of Democrats who did not secede but who would if they could, have done the same thing.

Again the *Herald* says: "It is the fashion, we are aware, for certain empty-headed demagogues to confound secession and State rights." That paper should not be so severe on its own party. For the "demagogues" of its own party are the ones who have done this thing. In 1861 a Democratic Senator from Oregon stood up in the Senate of the United States and maintained that secession was a State right; and, as usual, quoted liberally from Jefferson to prove it. This speech reflected the sentiments of the Oregon Democracy, who, at their next State Convention declared that it was unconstitutional and wicked to oppose secession, and to prove it quoted Jefferson again. In all the Northern States the Democratic party took a position in antagonism to the war for the Union, and relied on Jefferson's principles as the bulwark of their position. We therefore had this state of things, viz: The Southern Democracy seceding from the Union and calling on Jefferson as their authority for the act, and the Northern Democracy opposing the war against secession and quoting Jefferson to sustain *them*. Thus in both sections of the Union Democrats were quoting Jefferson, at the South as the direct author of secession, at the North as an authority to prove that it was wicked and unconstitutional to put secession down. Who is it, then, who has "coupled Jefferson's name with secession?" Does not this recital of facts show that some people ought to have better memories or more candor?

But we weary of this, and it is too familiar to our readers to trouble them further with it. We make but one additional remark. The *Herald* says: "Jefferson always held that the real danger consisted in the General Government usurping powers which were not conceded to it by the Constitution," and that "the result has shown that he was a prophet as well as a philosopher." How charming this is when we all *know*, because we have the experience of it, that the "real danger," as foretold by Hamilton, grew out of the usurpation by the States of powers not belonging to them, culminating in secession, rebellion and civil war! Truly Jefferson was about as much of a prophet as a philosopher!

Polar Explorations.

Capt. Hall's Arctic expedition is now fully under way, and adding another to the many attempts which have been made to reach the region of the Pole. This expedition has been assisted to some extent by the Government, and having the aid of past experience in northern exploration, better results are expected from it than have been realized from preceding expeditions. The attempt is to be made to reach the open Polar Sea by passing through the "regions of thick-ribbed ice" to the north of Greenland, instead of keeping around by the coast of Nova Zembla, which route is claimed by some as an open one to the Pole.

This theory of an open route was propounded two years ago by Capt. Bent, an American sailor, who maintains that the warm current of the Gulf Stream takes this course. The theory turns entirely on the point as to whether these currents really reach the Arctic Sea; and, if they do, whether they retain enough of their heat to keep them distinct from the flow of chilled waters which bring down the ice fields. These propositions were elaborated not long since in a series of articles in *Putnam's Magazine*.

A paper was recently read before the New York Geographical Society, in which Capt. Bent's theory was thus tersely stated: "That the Gulf Stream of the Atlantic and the warm Japanese current of the Pacific are each prolonged to the vicinity of the Pole, where, he thinks, these currents uniting, discharge their heat and produce an open polar sea." He is of opinion that these currents are the cause of this sea, and that they constitute the only practicable avenue by which a ship can reach it or the Pole."

It was, however, shown this theory is but a theory; that the whole value of Capt. Bent's suggestion depends on conditions which are not proven, and are, therefore, wholly speculative. Hence the Holl expedition sailed in the old track, leaving this theory to be tested by others.

However satisfactory it would be to find a way to the Pole, the achievement could be of no practical advantage to the world, and it would seem that time and money and lives enough had been wasted in the attempt.

The leaders of the Democracy of the United States, who have their headquarters in New York and who are plundering that city at the rate of millions upon millions each year, are catching it on all sides. Disraeli to-day give an account of a great meeting at New York, at which resolutions were adopted denouncing the thieves and demanding that they be brought to justice. It is getting very hot for Tammany.

Chicago Commerce.

A Chicago dispatch of the 22d of August gives the following regarding direct importation from foreign countries to that city:

The *Tribune*, this morning, calls attention to a new phase of the Chicago importing trade which has been recently developed. This bringing goods from Europe via Montreal, and landing them directly at our wharves without previous overhauling. Several of our heaviest merchants have adopted this channel of traffic, which promises to grow rapidly by reason of its success. A propeller, laden with goods, which left Liverpool on the 20th of July, arrived in port yesterday, so that by twenty-two days from the time the goods left a European port they will be in the warehouse of the importer. This is much quicker time than can be depended upon importing via New York where goods, besides being subjected to outrageous charges, are usually detained from ten to twenty days in the Custom house, in addition to twelve days or more on the ocean, and from three to seven days on the railroad, with high charges for transportation. This independent mode of importing is working well. The only fear is that the New York interest will become so seriously alarmed at the threatened loss of this business that they will offer better inducements for time, and flatter our merchants into a renewal of their fealty to the old system. What is wanted now is complete concentration of commercial independence.

THE SCENERY OF EUBŒA.—In his recently published work, "Impressions of Greece," Sir Thomas Wyse writes:

"Magnificent depths of foliage, of all Oriental forms, opening below; now and then a glen clothed with ilex and other ever-green timber, stretching in complicated lines to the sea; the sea itself edged with the rugged isles of Skopelos and Skiathos, mellowed incessantly lines of purple by the distance, made the constantly accompanying frame of our picture, the road overshadowed by infinite varieties of plane-tree and fir. Sometimes a great, gaunt, half shattered pine sturdily held his own half-way down or marked in lines different shelves of rock, step-wise, right over the now peaceable river. And all this had a running accompaniment of shrubbery, brushwood, glimmering bay, and lofty red stemmed arbutus, and sharp myrtle, and bushy lentisk; and the red clusters of pomegranates, and the pale agnus-castus, and such clumps and scatterings of flowers at their feet, yellow, blue, white, blossoms like snow-flakes, or Turkey carpeting, over the moss, running up the wild branches among those thousands of trees, so joyous, and festal, and superabundant that I could not believe myself in Greece, and still less in a country to the north of it. All this, too, with such odors and sounds! Those first make an atmosphere of their own—a wholesome mountain air, poignant, invigorating; most classic, too; breathing all of Neptune, to whom they were dedicated, or of Diana and her nymphs. No one would be surprised to see a bevy of them, light-sandaled, and clean-limbed, and short-kirtled, and clear and brilliant with health and exercise, start out, with red deer leaping all about them, from any of the thousand coverts and haunts wide for such divinities and their human passions, loves, or sports, which we had passed on our way."

HAPPY HOMES.—The homes of people are the landmarks of civilization. They are a standard by which we may meet their moral and social greatness. What is a nation but a large family, possessing rights and duties, interests and privileges? The influence of each member of that family, for good or evil is reciprocal. As the shock of electricity vibrates and expands, so the influence of the human action is diffused from the center to the circumference of human society. Hence how cold that heart must be which does not beat more quickly at the mention of the word! What delightful associations and recollections are connected with that sacred spot. It is here that the virtues and charities, the blessings and realities of human life are enjoyed. Here the sympathies of the heart and affections of the mind are nourished and developed, and all that is good and great in our nature is brought to maturity.

TRUTH IN BRIEF.—Anybody can soil the reputation of an individual, however pure and chaste, by uttering a suspicion that his enemies will believe and his friends never hear of. A puff of the idle wind can take a million of the seeds of a thistle, and do a work of mischief which the husbandman must labor long to undo, the floating particles being too fine to be seen and too light to be stopped. Such are the seeds of slander, so easily sown, so difficult to be gathered up, and yet so pernicious in their fruits. The slanderer knows that many a mind will catch up the plague and become poisoned by his insinuations, without ever seeking the antidote. No reputation can refute a sneer, nor any human skill prevent mischief.

There is intense Democratic agony over the success of the new loan. The Cincinnati *Enquirer*, a representative Democratic journal, denounces the funding scheme as a swindle, and is furious about it. The objection is that it removes the debt one step farther from repudiation, and makes the task of the Democratic demagogue more difficult and more improbable of success.

The printing and stationery of the New York Democratic thieves for two and a half years foot up $3,000,000, most of which went to two companies having connection with the "ring," who shared the profits of the steelings!

REMARKABLE CURE OF MRS. HOOVER.

TUALATIN PLAINS, WASHINGTON CO., OREGON, July 21, 1871.

DR. A. M. LOWTEA—I have been troubled with Rheumatism for the past twelve years; my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty get around. My shoulder pained me a great deal and a large knot or swelling grew on it, so that I could not raise my hand to my head.

Since last spring I have been taking your "Oak Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and the knot entirely DISAPPEARED and I use my limbs and am far better than I have been for years.

Beauty, Permanence and Economy

That we can confidently recommend and guarantee an entire satisfaction in their use.

THEIR COST is less than pure leads, and covers one-fifth more surface making them the most economical Paints in the market.

THEIR DURABILITY is unquestioned. They dry hard with a smooth and glossy surface and will not chalk, crack or peel off.

THEIR ADAPTABILITY.—They are already mixed and ready for use and require no oil, turpentine or dryers. Are sold of any desired shade, by the gallon only.

Testimonials:

Gen. James S. Negley, M. C., Pittsburg, Pa., writes Nov. 10, '70: I have no hesitation in recommending the "Averill Chemical Paints" to those who regard economy and durability. It weathers our smoky atmosphere better than any Paints I have tested. The colors are rich and variable. Altogether I find them the CHEAPEST AND BEST."

"JACKSONVILLE, FLORIDA CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any LEAD AND OIL CAN EQUAL IT.

PATENTED

PETROLEUM FLUID

Perfectly FREE from the Danger of Explosion.

THIS FLUID, AFTER YEARS OF PATIENT EXperiment, and the expenditure of over one hundred and fifty thousand dollars, has been produced by R. F. DANFORTH, of Cleveland, Ohio, and has been introduced with perfect success.

IT CANNOT BE EXPLODED in a lamp, or in any way, or by any known test.

IT IS FREE FROM GREASE AND FILTH, and will not injure the finest fabrics.

IT IS FREE FROM ALL DISAGREEABLE ODOR, and in this respect is preferable for a night lamp.

It gives a purer, more brilliant, and at the same time softer light than any oil or fluid to use, and is fully equal to gas light.

IT DOES NOT SMOKE THE CHIMNEY in the least.

A gallon of it will burn as long, with the same height of blaze as Kerosene.

It is more easily extinguished when ignited, than Kerosene.

It is strictly pure, containing no mixtures or chemicals, burns in an ordinary Kerosene lamp, with simply changing the burner, with or without a chimney.

THIS FLUID is now on Exhibition at the

CAPT. ANSELL'S MARKET AND THEATER. This building, preparations for the erection of which have been commenced, is to have an iron front on First and Second streets, each of which will be two hundred feet on A street, and will have three stories, of fine bold fronts, finish of brick and iron. The first story will be devoted to the purposes of a market; to be divided by twenty-eight stalls, equally proportioned, with asphaltum floors, marble tables, etc., all of the finest order. The ceiling to the market will be twenty feet in the clear. Outside, there will be passages of two hundred feet by thirty, on both sides of the building, for teams to back into the stalls; and walks covered with awnings. The center aisles, 20 feet wide, will pass direct through the market, from east to west, and north to south, with openings at each stall, so as to present one continuous row of marble tables, 200 feet in extent on both sides, between Corinthian columns and divided by arches, to support the floor of the theater above. The theater will have a balcony both upon First and Second streets, of uniform appearance. The main entrances are to be upon First street, through large door-ways, on either side of the market entrance, winding stairways to the cafe and restaurant on the first floor. Passages down into the cafe, and a spacious room 60x140 feet in size, with ceilings 35 feet in height. There will be four places of egress from the theater, the three on the sides to the entrances mentioned, being one on First street, one on the south side, down to the alley walk and roadway, and one on Second street. The cafe occupies part of three stories, the First street front, the ceilings being 20 feet for the first story, 18 feet for the second, and 16 feet for the third story. This building will cost $85,000 or more when completed.

CITY.

CAPT. ASHLEY'S MARKET AND THEATER.—This building, preparations for the erection of which have been commenced, is to have a front age on First and Second streets, each of sixty feet, and on two hundred feet on A street, and will have three stories of the bold front and finish of brick and iron. The first story will be devoted to the purposes of a market; to be filled by twenty-eight stalls, equally proportioned, with asphaltum floors, marble tables, etc., all of the best order. The ceiling in the market will be twenty feet in the clear. Outside there will be passages of two hundred feet by thirty, on both sides of the building, for teams to back into the stalls, and walks covered with awnings. The center aisles, 20 feet wide, will pass directly through the market, from east to west, and north to south, with openings at each stall, so as to present one continuous row of marble tables, 200 feet in extent on both sides, between Corinthian columns and divided by arches, to support the floors of the theater above. The theater will have a balcony both upon First and Second streets—of uniform appearance. The main entrances are to be upon First street, through large door-ways on either side of the market entrance, winding up an easy step to the cafe floor, thence down into the theater, a spacious room 60x140 feet in size, with ceilings 35 feet in height. There will be five places of egress from the theater, the three besides the entrances mentioned, being one on A street, one on the south side, down to the sidewalk and roadway, and one out upon Second street. The cafe occupies part of three stories in the First street front, the ceilings being 20 feet for the first story, 18 feet for the second story, and 16 feet for the third story. This building will cost $85,000 or more when completed.

THE HOLLY WATER.—This style of water works, which has been under discussion for some time in this city, seems to be attracting very general attention at the East. It is being adopted quite extensively by those new cities which have reached the stage through which our city is just now passing—the stage when the city must begin to look out sharply for the future. It would seem that if the system were as lasting as some of our newspaper correspondents claim, it would hardly be adopted by city after city, as is the fact; and that it would scarcely create the lively interest which is shown to exist by the following dispatch, dated La Porte, Ind., Aug. 31st:

"This city has just completed the Holly Water Works, and yesterday had a trial, which was attended by official and personal delegates from fifteen cities in Northern Indiana and Southern Michigan, some 250 visiting from South Bend by special train furnished them by the Lake Shore and Michigan Southern Road. The day being quite windy forbade the taking of an accurate measurement of the throw of the solid water, but the demonstrations were highly satisfactory in a scientific point of view. The works are driven by two piston and one rotary engine, capable of exerting together 450 horse-power, which would give in case of necessity over 4,000,000 gallons daily, which is about four times the amount that will be ordinarily required."

RUNAWAYS.—These sort of incidents which are such pleasant sights to see on a crowded street, have, for the last two or three days, been happening according to the programme of the multiplication table. On Monday three teams, attached to dirt wagons standing at the junction of Park and Jefferson streets, started at once, and for a little while they had a parade of their own, a deal livelier than that of the firemen. A lamp post at the corner of Jefferson and Seventh stopped, one of the teams; but the post got the worst of it. Yesterday, no less than five or six runaways occurred, most of them harmless in their effects, but dangerous in the contemplation. One of these, however, did some mischief—a wood wagon was drawn by a runaway team upon the sidewalk at the corner of Washington and Second, up Washington to the corner of Third, where the obstructions were too numerous for the strength of the double tree, which broke and let the horses go. The wagon knocked a fruit stand into pi, and mowed down the awning posts in front of the *Sentinel* office as if they were hot reeds. Of course the awning came down in a shower of splinters.

ST. HELENS ITEMS.—Our correspondent at St. Helens, writes, Sept. 4th: "On Saturday evening last, Mrs. Carrie Young, the deservedly popular lecturess, dropped amongst us with one of her happiest efforts in behalf of the cause of temperance. Also, on last and this evening she proposes to give her views on the subject of female suffrage, the next great political problem. On Sabbath, at 11 o'clock, the Rev. Mr. Winton preached to an appreciative audience. He is a fine speaker, and I hope will meet with that encouragement his talents demand. He proposes to preach here and at Kalama alternate Sabbaths. To-day the County Court is in session with important business before it for adjustment. To-morrow evening, Prof. Herman will hold forth; so you see our equanimity is sorely tried; but I think we will get bravely through it."

LECTURE BY SUSAN B. ANTHONY.—We presume nobody has forgotten that Susan B. Anthony will talk at Ore Pino this evening about woman suffrage. All who have examined their own opinions on the subject and found themselves doubtful, should go to-night and get themselves clinched; one way or the other. Miss Anthony is said to be a clincher, and perhaps our folks will never have a better opportunity than the present to get their ideas fixed on the question. We understand that Miss Clara Dunlway will open the exercises with an original campaign song. That will probably be worth hearing, anyway.

FRUITS AND FLOWERS.—The Messrs. Morgan Bros. of this city, have placed upon our table a beautiful specimen of the celebrated "Lilium Auratum, or Golden Banded Lily of Japan. The flower is a regular specimen of gorgeousness such as was never equalled by any suit of clothes that Solomon wore, and owed his tailor for, even in his fastest days. The same firm of florists and horticulturists, have given us a few specimens of the "Trophy Tomato"—a handsome, rounded and smooth fruit, very nice for table use.

RETURNED HOME.—The firemen's parade of Monday slopped over into yesterday, a little. The delegations of visitors from neighboring towns stayed over till morning or afternoon, and were escorted to the depot by delegations from our companies, with banners, and music. The last of the demonstration has now been seen. The affair was handsomely done, from first to last.

STEAMERS TO SAIL.—The excursion to Gray's Harbor will be made by the *Geo. S. Wright* instead of the *Gussie Telfair*, and will start at 7 o'clock Friday morning. The *Gussie Telfair* is advertised to sail on Thursday evening for Victoria, San Juan, Nanaimo and Sitka.

LIBERAL SUBSCRIPTION.—On Sunday the congregation attending the dedication services of the Baptist Church at Oregon City, subscribed the liberal sum of $2,000 toward paying off the debt contracted by the erection of the building.

RAILROAD LABORERS.—One hundred Chinese laborers were forwarded yesterday to the front, on the O. & C. railroad. Another hundred will go to day and a hundred each, to-morrow and the day after—400 in all.

SNAG BOAT.—Major Roberts has let the contract for building a snag boat, with derrick attached, to Joseph Paquet. The boat is to be 100 feet long; beam, 23 feet, depth of hold, 4½ feet.

TARGET PRACTICE.—The Washington Guard will have their annual target practice on the 15th inst., near the Mountain Park. The boys always have a good time upon these occasions.

CARGO DISCHARGED.—The barkentine *Jane A. Falkinburg* completed the discharge of her cargo yesterday. She will take a return cargo for Honolulu.

FOUND.—An application for a telegraphic transfer. If it is of any use to anybody, it can be had by calling at this office.

PERSONAL.

Judge S. J. Field, Associated Justice of the Supreme Court of the United States, arrived by the steamer *John L. Stephens*, and presided yesterday at the setting of the United States Circuit Court.

PUGET SOUND, ETC.

OBSERVATIONS OF A THREE WEEKS' TRIP.

When this voracious account broke off, the other evening, we had just got through the Insane Asylum at Steilacoom and arrived at the Territorial Penitentiary. We did not take any stock in either institution, and do not therefore feel that we violate any parole or other obligation in taking respectful leave of both. It ought to be mentioned, however, before leaving for the next terminus, that just across the Sound, in a little inlet, there is a dog fish oil factory in operation—established by Col. Pardee, the gentleman who some months ago lectured in Portland on the subject of "Picked up Fish." The Colonel is still picking them up. Of the amount of oil produced daily or weekly we obtained no certain information; but it is thought that the product might be made a very considerable item in the aggregate local wealth of Puget Sound.

While we were at Steilacoom the ladies, emulous of the women of other localities who have associated themselves to build long bridges (as at Olympia), or destitute homes (as at Portland), held a meeting for the purpose of devising ways and means for the development and advancement and "general good" of the town. The assembly was unanimous in the opinion that the women might do much toward improving the town, and deciding it upon that career of greatness which seems to be the destiny of each platted and duly recorded town site in this great country; but it was divided upon several propositions, each put forward as the essential thing to be first done, and the most likely thing to give the town a healthy start. The proposition to purchase a hearse finally drew to it the greater number of adherents, though we could not learn whether it was definitely adopted. There is no doubt in our mind, however, that the judicious use of a hearse would do much to improve not only Steilacoom but almost any other town on the Sound.

POINT DEFIANCE

Is a somewhat noted point, a few miles below where Col. Pardee picks up dog-fish for his factory. It is a place where the Sound is very narrow, where the water at every ebb and flow of the tide runs exceedingly rapid, and where the United States has, for a long time, talked of erecting defensive fortifications. The point is very high and covered with a dense forest. We should say it is a very safe place for a fort, as, without a favorable tide and breeze no enemy could get near enough to hit it with their cannon balls; and if they were to get within gun shot, the Point affords excellent facilities for either a strategic dodge or retreat.

TACOMA

Lies just around this point a few miles, on the shores of Commencement Bay. It is unnecessary to state that Tacoma is also the terminus of the Northern Pacific Railroad. The founder found it two or three years ago, lying around loose, and as it was the only place not then appointed and ordained for terminus purposes, he went for it, bought it, and had it regularly platted and set down as the place where the job of building the world was commenced; hence the name Commencement Bay; and where the job of building the Northern Pacific Railroad—the next greatest work, after creation—is to be finished. Nothing has, however, happened to prevent the possible extension of the town site. There is room yet for Tacoma to spread as much as she likes.

SEATTLE

Is the only town we visited which presents any notable evidence of present life and business activity. It was originally built on the side and top of a second hand mountain, but of late years, the hardy hand of enterprise has filled up a part of the bay in front with piles, slabs and sawdust, and most of the business part of the town now stands where the wild waves, the lively clams and playful crabs were wont to disport themselves. There is room enough in front and southward on the mud flats, for an indefinite extension of the town site, by this economical method of rectifying the errors into which the original earth-builder fell when constructing a place for Seattle. The town has several "additions," a peculiarity which has lately been discovered to attach to the maps and plats of almost every town on the Sound. Some of these are not exactly contiguous to the original or the enlarged and revised plats, but that fact don't matter much; distance lends enchantment to the view, and some of these "additions" are really seen to best advantage through the lenses of a first class telescope. Only a small part of the bay below the tide line, has been thoroughly reduced to private ownership and possession, on account of the difficulty experienced in finding the surveyor's stakes; and this same difficulty may result in some confusion among claimants, when Seattle, as the terminus, shall begin to elbow for room.

So far as is apparent to the naked eye, Seattle has more good farming lands to back it, than any other town on the Sound. The valleys of the Dawamish, White and Black rivers, and the borders of Washington, Union and other lakes in the vicinity, are of considerable extent, and the soil is highly productive. The greater part of the supplies of vegetables and hay consumed by the lumbering mills, logging camps, etc., of the Sound, are drawn from these valleys. At the time of our visit the harbor contained more steamboats, sailing vessels, steam tugs, and small crafts of one sort or another than we saw in all the other harbors of Puget Sound. Capt. Wright, formerly of this city, is building a stern-wheel steamboat to ply on the Sound and its navigable rivers. There were, also, two or three small sailing vessels in course of construction. A large brig or bark was loading with coal, from the mine on Lake Washington. This mine is distant from Seattle about three miles, and the coal is brought down in cars. The company working it have tugs and barges on the Lakes Washington and Union, on which the cars are transported the greater part of the entire distance from the mine to the Seattle depot. The coal burns freely, but is not equal to the Nanaimo product, either for gas manufacture or use on steamships. For the latter use, it has too much blaze. Seattle is, perhaps, the most conveniently situated of all the Sound towns, for commerce with the mills and logging camps, and hence it has and will keep a larger share than any of them, of the local trade. With all its advantages, agricultural, manufacturing, mining and marine, the town is less dependent than most others upon the event of the location of the railroad terminus, and, hence, it is going ahead somewhat on its own responsibility and merits. It is, however, down on the flats as a candidate for the terminus, and its citizens deem it rank treason to even doubt the eventual ordination of Seattle as *the* great depot where the railroad systems of the continent and the commercial navies of the world are to dump their cargoes. They are more certain of being chosen for this glorious destiny, since, a few weeks since, some New York gentlemen, who are believed to be about as shrewd in foretelling where greatness is about to sprout, as any men made of so poor material as dust could be, came out and bought several hundred or thousand acres of land, it is in the vicinity. If New York could look away four thousand miles and a fraction of a mile over, and discover the actual centre of the world, why should Seattle longer fail to discover its own location? And having discovered its own central position in the solar system, why neglect to assert itself? These plain questions having been settled in a practical way in the Seattle mind, Seattle at once took itself by the straps of its boots and lifted itself up to that place where the thunderbolts used to be stored when the business of shining them at people down below, was the exclusive amusement of the boss Jupiter, for the time being. Not that Seattle has gone into the thunderbolt business, but that its position among the rival commercial giants of the Pacific coast is now assured, and it exulteth and puteth on frills. Whosoever would now buy real estate in Seattle, should put in his pocket neither purse nor scrip, but cash, and plenty of it.

[NOTE.—We find this thing "growing on our hands," but there will be still more of it.]

All continued.

A. M. Simpson et al. vs. Willamette Iron Works; order to place cause on docket and judgment in favor of plaintiffs for $926 22.

The Court adjourned to Thursday, 11 A. M.

The European Commissioners appointed by capitalists on the continent to examine and report upon the Northern Pacific Railroad arrived at this city by the *John L. Stephens*, and put up at the St. Charles. Before coming here they examined the eastern end so far as the Red River of the North. They left about 11 o'clock A. M. yesterday in a company with Mr. W. Milnor Roberts, Chief Engineer of the North Pacific Railroad, and Gov. Geo. B. Sargent, financial agent of the company in Europe, to examine the road from Kalama northward. They will go to Puget Sound and procuring a special steamer, will visit all the points of interest at leisure. The names and titles of the Commissioners, as taken from their cards are as follows: Le Chevalier R. de Grunberg, Professor a l'Ecole Polytechnique de Vienna, Austria; N. J. den Tex, Secretaris de la Chambre de Commerce, Amsterdam; Otto von Breitschwert, special correspondent der Frankfort—*Zeitung*, Frankfort on the Main; Rogrargre-Peth Hase, Eisenbahner Director, Berlin, Prussia; and Mr. Aug. Polech, Vice President to the Institution of Civil Engineers of Austria, Vienna.

ATTENTION, DOGS!—Licenses are again due.

FRAUD!—Fraud!—Under the above caption, Mr. Pease, of Grey's Music Store, has seen fit to advertise that a leading Music House of this city had perpetrated a fraud in the sale of a Piano, purporting to be of the manufacture of Steinway & Sons, when in reality it was a bogus and worthless affair—thus, by innuendo, leaving the public to draw their own conclusions.

Taken together with the fact that my House is the leading Music House in the city, and the only one he feels to be in his way, or that he makes a fight upon, the public must naturally conclude his thrust is at me; hence this statement and public notice of the vile, cowardly resort of a contemptible dealer to advertise his wares; which, but for the peculiar circumstances, would be beneath the notice of any gentleman.

The fact he advertises in his poster being simply this, That some few years ago an act of the kind he mentions was perpetrated by a party who is not now in business in this city, and the first knowledge that Mr. DePratt had of the circumstances was related to him by myself, in a private conversation a few days since, assuring him that I forgetted out and exposed the transaction at the time.

After seeing these posters about the city, I called upon Mr. DePratt and asked him, as a matter of justice to me, that he should publish the facts as they were related to him by myself, or at least to exonerate me in some public manner from the implications which his posters suggested. He flatly refused to do anything, "as were enemies and might as well remain so." This statement annoyed me accordingly, as I always annoy me greatly to have an enemy that is beneath even the contempt of respectable men.

I do not pretend to say whether it is possible for a man to be dishonest in advertising and yet honest and upright in his dealings or not. The public must make their own conclusions in this respect.

Still Onward and Upward.

The extraordinary increase that has taken place in the sale of Hostetter's Stomach Bitters during the past year, is another proof that an intelligent people, although they may try all things, hold fast only to that which is good. No amount of puffery can lift inferior articles to the position of standard specifics. To use the words of Tom Paine, they may go up like a rocket; but are sure to come down ignominiously like its extinguished stick. Hundreds of such nostrums have gone up and come down since the introduction of Hostetter's Stomach Bitters, nearly the fifth of a century ago. It has not and never has had a rival in efficacy or popularity, and now stands at the head of all proprietary remedies manufactured on this side of the Atlantic. In every civilized community on this continent, or in South America, it is the accepted remedy for dyspepsia, bilious complaints, constipation, general debility, nervous weakness, and many other unpleasant or dangerous maladies. A medicine so widely extended is of course pirated and imitated by dealers without conscience or integrity.

Therefore, let every man and woman who designs to purchase genuine Hostetter's Stomach Bitters, see to it that they have what they pay for, and not the results of an infamous imposture. Look carefully at label, stamp and name blown in the glass, and do not forget that the *true bitters* is sold in bottles only.

RAIL-ROAD LANDS.

OFFICE OF LAND DEPARTMENT,

OREGON & CALIFORNIA R. R. CO.

AND

European and Oregon Land Co.,

PORTLAND, OREGON, August 1, 1871.

THE COMPANY IS NOW PREPARED TO EXTEND the pre-emption privilege of purchasing Railroad Lands in advance of the time same is placed in market to all parties desirous of securing them on the following terms:

The applicant filing in this office a claim in the form prescribed to-wit:

Pre-emption } date, No. ——

To the Land Agent of the European and Oregon Land Company:

SIR:—You are hereby notified that I have settled upon and improved (description of land) in the county of —— State of Oregon, containing —— acres, and that I claim a pre-emption right to purchase said lands at the Company's valuation in accordance with the following resolution of the Directors of said Company, adopted on the twenty-ninth day of May, A. D. 1871, to the terms of which I hereby fully assent:

"Resolved, That the parties settling upon and improving any of the lands of the European and Oregon Land Company, before the same are put in the market, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment, as all other lands belonging to the Company, when brought into market; provided, such settlers shall file in the Land Office of said Company, written application, giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, notice thereof shall be sent by the Company's Land Agent, through the Postoffice, or otherwise, as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person."

(Name of applicant.)

(Postoffice address.)

When the application is received, a certificate, signed by the Agent, obligating the Company to the terms, will be sent to the claimant in the following form:

PRE-EMPTION CERTIFICATE, No. ——

This is to certify that —— of —— county, State of Oregon, has this day filed in this office a pre-emption claim to (description of premises), and is hereby entitled to the first privilege of purchasing said land at the Company's valuation, (which is to be made without reference to improvements upon the land) when placed in market, in accordance with a resolution of the Board of Directors of said Company, adopted May 29, A. D. 1871.

And the price of the above described land is ——, and the terms thereof will be sent to the party to whom this Certificate is issued, and if the land is not purchased by the said party as the holder hereof within sixty days from the date of said notice, the Company will be at liberty to sell the land to any other person.

(Signed)

Land Agent of the E. & O. Land Co.

The lands will be appraised by a competent, disinterested party, under oath, at their actual present pecuniary or prospective price on the basis of similar lands in the vicinity, and when appraisement is made they will be sold in quantity not exceeding one hundred and sixty acres to one person, payable in five equal annual instalments, with interest from date of contract, at ten per cent. per annum, principal and interest payable in United States Legal Tender Notes. Warranty deeds given after United States Patent issues, upon payment in full.

Blank forms of application furnished upon request.

TO OUR PATRONS AND THE PUBLIC GENerally, desiring to make SAFE and RELIABLE Investments in Real Property, we beg leave at this time to call your attention to this DESIRABLE TRACT, which has been subdivided into Blocks and Lots, and is now in the Market, to be sold in Alternate Lots and Blocks.

No one that has ever visited this body of Land but what will say that it is the MOST ELIGIBLE for SUBURBAN RESIDENCES of any ever offered in this market, the land having a gradual slope from the River back to SEVENTEENTH STREET, there being scarcely any Block in the entire tract but what is

Fair View of the City of Portland and Willamette River.

Can be had. Another advantage this Property will have for Residence: no high water will ever affect the drainage of the city.

The Oregon and California Railroad Company's New Ferry Boat is now making Regular Trips from the Foot of F street, Couch's Addition, to the Foot of Oregon street, Holladay's Addition.

IMPROVEMENTS TO BE MADE:

Aside from Real Estate Improvements now in contemplation by the Railroad Company, in the construction of Wharves, Warehouses and Machine Shops, quite a number of citizens will commence erecting fine Residences and Business Houses; also, Street Improvements, under contract, by grading and planking Holladay Avenue its entire length, to connect with the Ferry Road. We can say that at least a Half Million Dollars will be expended in Permanent Improvements on this Addition the present season.

TERMS OF SALE—40 per cent. CASH down; deferred payments, six and twelve months, with interest at the rate of 10 per cent. per annum.

NO QUESTION AS TO TITLE

The Title to this property is undisputed, being a portion of the Donation Land Claim of Jacob Wheeler and wife, United States Patent issued, and conveyed by said Wheeler and Wife to Geo. W. Weidler.

Parties desiring to invest will find Maps and Plats of the property at our Office, or at the Office of Messrs. PERRY, RUSSELL & WOODWARD, and other LAND AGENCIES in the city.

That Lane Fence.

Old farmer Smith came home in a mist,
From his building across the way,
While his sweetlittle wife, the pride of his life,
At her wheel was singing away.

And ever anon, a gay little song
With the buzz of her wheel kept time;
And his wrath fell low, as clearing now,
Under her cheerful rhyme.

"Come, come, little Turk! put away your work,
And listen to what I say;
What can I do in the moonlight blue,
With the men across the way?

"I have built my fence, but he won't commence
To lay up his rails, he says,
His cattle to feed, and the Lord pity him—
I am tempted to make a sale."

Why John, dear John, how you do go on!
I'm afraid it will be so they—
"No, no, little wife, I have heard that strife
In a lawyer's hand don't pay.

"He is picking a flaw, to drive me to law.
I am told that he said he would;
And you know, long ago, law wronged me so,
I vowed that I should.

"So what can I do, that I will not rue,
To the man across the way?"
"If that's what you want, I can help you haunt
That with the spectre gray!

"Thirty dollars will do to carry you through,
And then Tom Envelashed's neighbor—
It would cost you more to peep to the door
Of a lawyer, and much more labor.

"Just end your good sense, let's build him a fence,
And shame bad act out of the fellow."
They built up his part, and sent to his heart
Love's dart, where the good thoughts mellow.

That very same night, by the candle light,
They opened, with interest, a letter;
Not a word was there, but three quarters to fair—
Said the man was growing better.

Tammany and the "Times"

The press generally is commenting on the attempt of Tammany to silence the *Times* by confiscating its property. The New York *Evening Post* says:

This is an outrage to which New York will not submit. We greatly mistake the temper of a free people, if an effort by our City Government to silence the press by persecution be not met with a more general and more indignant protest than even the continued suppression of the public accounts. Let it go out to the people of this country that "the Tammany Ring" is bent on annoying the *Times* with a frivolous lawsuit, in order to revenge itself for the "exposures" made by it, and Messrs. Hall and Connolly will find that they have done more than public men ever did before to give popularity and influence to a journal.

The Brooklyn *Eagle* says:

The Tammany people must be losing their wits. The Common Council yesterday passed a resolution ordering the Mayor to bring suit to eject the *Times* people from the land their building is now on. They think that, as the site of the old Brick Church, it was reserved to religious purposes exclusively when that corporation conveyed it to the city. When Raymond & Co. got it of the city, they paid some $25,000 additional to the price, and procured from the city a release of the condition on the Gardner Spring transfer of the property. The Common Council-led by Mayor Hall, now pretend that, inasmuch as the city had no right to receive that money as clearance of the religious condition attached to the land, "the city must proceed to reoccupy the land, now after the *Times* has built a million-dollar office on it, and especially after the *Times* has proved the Ring to be squandering many millions more of the people's money." Such a plote of putty and impossible vexation shows the Ring to be as insanely and suicidally mean in small things as they are criminally impenetrable in great things. The men who attempt such a side-war as this will demonstrate themselves to be as great fools as their journalistic adversary has demonstrated them to be knaves. It is not the money the *Times* paid to secure its land that needs investigation, but the money the *Times* has proved the Ring paid Garvey, Ingersoll, Keyser, and the rest of the clique.

FINANCE AND COMMERCE.

TUESDAY EVENING, Sept. 5th, 1871.

Gold in New York, 113¾.

Currency, buying, 87½; selling, 88½.

Our bankers received to-day, through Wells, Fargo & Co., $125,000 in coin.

The steamer *John L. Stephens*, arrived last evening bringing a full cargo of assorted merchandise, and full list of passengers.

The steamer *Idaho* leaves San Francisco for this port on Thursday morning.

The number of acres put in flax seed this season were 9,000. The late rains this Spring prevented early seeding and in consequence when filling set in many localities for the lack of rain, was blighted, but in other localities a fair crop has been gathered. The yield will not be more than 600 pounds to the acre.

Gunny bags, have filled out better than was anticipated a few weeks since. There have been purchased by farmers more sacks this season than last to sack the crop, and the cuts that are arriving are heavier.

To-morrow the stockholders of the P. T. Company hold a called meeting. The object of the meeting is as yet clothed, to a great extent, in mystery, but from all information we can gain this meeting is called to disincorporate the old Company, and organize a new one. But who will be the controlling party in the new organization we cannot as yet learn. That the river line and the railroad company should run together, in so far as to agree upon certain rates of tariff, so as to equalize the same, is conceded by all, for as it now is, the difference is too marked between some points both by steamer and rail. In the event of Mr. Holladay buying the People's Transportation Company out we are satisfied in reviewing the business actions, that rates of tariff will not be advanced beyond equalizing the same, as he is too shrewd and reflecting a business man not to know that his true interest lies in developing the country, which, in the end will more than pay him for retaining tariffs on both railroads and steamers at fair rates, so that our farmers, we think, cannot with perfect ease in the opinion that tariffs will not be advanced to high rates, whatever may be the resolutions arrived at at the meeting of the stockholders of the People's Transportation Company to-morrow (Wednesday.)

From E. Cartwright, Esq., of Albany, we learn the following particulars in regard to the Albany Oil Works, which will soon be in operation in that city: The size of the building is 40 by 80 feet—and two stories in hight. The lower floor is 10 feet high, to be used as a sacking room; the second floor is forty feet high, and is to be used for making oils, etc. On this floor are eight bins, 20 feet square, with 40 feet hight. For making linseed oil they will have three presses in use, with the capacity of consuming from 800 to 900 lbs. of flax seed at each pressing, producing 32 gallons of oil and about 23 gallons of linseed oil. The time occupied in making one pressing will be from 2½ to 10 minutes. The machinery for making lard oil is nearly up, and by the time the pork season is ended in fall will be fully ready to commence operations. The director's melting capacity is 6 tons of pork per day, with hams and shoulders cut off. There are or will be 6 lard oil presses with capacity of working into oil all the lard produced by the director. The cakes from the lard oil presses are called stearine which will be made into soap. The Company can make at each boiling three tons of soap, if the consumption justify it. Everything requiring boiling is boiled by steam heat, conducted through canal pipes into the building from the boiler where the fire is, or at the block distant, so that no fire is required near the works. In connection with the manufacture of lard, the Company intend manufacturing refine an article of toilet soap as the imported. The oil cake meal produced from the Pioneer Oil Works at Salem finds a ready market at from $25 to $30 per ton; but of this and others, in connection with these works we have been promised full particulars, and upon receipt of the information we will present it to our readers, as the Albany Oil Works will not fully commence making linseed oil before next season's crop of flax seed.

The Mark Lane *Express*, in relation to the French Crops remarks: "A week ago, without certain prospect of a deficiency, the price of Flour and Wheat began to advance, not only in Paris but on all the markets of the departments, or rather of Europe. The advance has been still more decided this week in consequence of the successive storms at Paris and an extensive part of the surrounding country. The harvest generally is only just begun, and we know from experience, especially from what has taken place in the south, that the return is not always in conformity with the appearance of the growing plant. Again, in the valley of the Loire, where the German armies have not penetrated, the breadths sown with Wheat are nearly the same as usual, and the severe winter was less felt than in the centre and north of France; we can, therefore, form an approximate estimate of the crops of that region; but we well know that the general produce of Wheat is not large in that part of the country. With respect to the invaded territories, much less has been sown with Wheat than usual, and a large breadth of Winter Wheat has been plowed up and resown, partly with Spring Wheat and partly with Barley or Oats, but all these will materially lessen the quantity of Wheat produced. The result of all these is a certain deficiency, but the extent of which is not at present known."

Merchandise Report.

WHEAT.—The dispatches from Liverpool give another advance of 1d, now quotable at 12s 2d, equal to $3 02 per central. Private dispatches from San Francisco state price excited, with as much as $2 65 per cental being paid for extra choice. Our buyers have advanced price here. We quote sales to choice to-day and shipper at $2 12½ @2 17½ firm per cental last night and this. Higher figures can be obtained for straight lots of extra choice for seed.

FLOUR.—To-day gives prices in San Francisco for extra at $7 50 @ advance on former quotations of 50 cts. @ bbl. The bulkers and exports have not as yet advanced rates, but will be compelled to do so if prices for wheat continue on long, or are likely to continue so.

FEED.—We note sales to-day in lots at a decline of from 1 to 2 3-4 cts. Exports market for 2526 lbs figures.

HAY.—Market very firm with but few lots coming. An advance on former quotations can be had for choice.

FISH.—The *Commercial Herald* of San Francisco, says: "Within a year or two there has been discovered that at the very lowest rates recently ruling for packed fish, the consumption has been largely increased and the stock proportionately reduced, thus adding firmness to holders who are now demanding enhanced prices.

SARDINES.—Mail letters from San Francisco inform us of an advance in the market there consequent upon unfavorable advices received from France regarding this season's catch.
